

GOCs HR - Meeting Demo Script (Portal)

Show Admin Portal end-to-end. App is optional at the end.

URL: <https://hrdemo.digitaldive-stage.digital>

Login: admin@digitaldive.demo / demo123

Hard refresh: Ctrl + Shift + R

Opening (30 sec)

Sir, this is the GOCs HR Admin Portal - full HR is managed here. Mobile app is only for employees (leave, attendance, certificates, payslips). Today I will walk Dashboard to Documents.

PART A - Overview

- 1. Dashboard - headcount, pending leave, docs expiring, alerts, recent attendance
- 2. Manager Self-Service - team roster / leave / attendance overview
- 3. Reports and Analytics - HR metrics widgets
- 4. Notifications - system alerts with employee names; Mark all read
- 5. Approvals - HR final approve/reject; sidebar badge when pending
- 6. Help and Manuals - user help

PART B - Core HR

- 7. Employees (IMPORTANT) - list, org chart, bulk upload; master form + photo; create popup shows app email/password
- 8. HR Masters - designations / employment types
- 9. Divisions - company structure / payroll type
- 10. Onboarding - new hire checklist
- 11. Recruitment and ATS - jobs / candidates
- 12. Employee Exit - offboarding
- 13. Compliance - visa / labour items
- 14. Performance - reviews / goals
- 15. Training - courses
- 16. Assets - assign / track
- 17. Travel and Expense - requests
- 18. Attendance - daily attendance + live refresh
- 19. Leave - app apply -> lead app -> HR portal final
- 20. Certificates - app request -> HR issue
- 21. Payroll - payslips / export

PART C - Self Service

- 22. ESS Portal - admin view of ESS; real ESS is on the app
- 23. Documents - upload passport/Emirates ID/visa/contract; download; badge = expiring reminder

PART D - App (optional 3-5 min)

App is employee side, not a portal replacement.

- fatima@digitaldive.demo / demo123 - ESS, leave, docs, payslips
- ahmed@digitaldive.demo / demo123 - Team approvals

Flow: App apply -> (lead approve) -> Portal HR final

If Sir asks

- Email on create? SMTP Phase 1B - credentials show in popup now
- OTP? No - email + password direct app login
- Portal vs App? Portal = full HR admin; App = employee tasks
- Documents badge? Expiring docs reminder until renewed

Time plan (~40-45 min)

- Opening + Dashboard to Help (10 min)
- Employees deep + Masters/Divisions (10 min)
- Onboarding to Travel quick click-through (8 min)
- Attendance, Leave, Certificates, Payroll (10 min)
- ESS + Documents + optional app (5-7 min)
- Q and A

Tip: click every sidebar tab once before the meeting.
